

Biomedical Asia is now BioPharma Asia - 5 events in 1

BioPharma Asia Convention 2010 is uniquely positioned as Asia's only exhibition that showcases leading biotech companies, including solution and service suppliers across the entire value chain of the biopharma industry in Asia.

Good business starts with good knowledge about the market and good relationship with key decision makers, and we understand that. With more mergers and acquisitions happening in the industry, more new players coming into the market place, Biopharma industry has never been evolving so rapidly and new relationships need to built, and we understand that too.

Key note held by Dr. Reinhard Glück, president of the SBA and Executive Vice President R&D, Vaccine Discovery, Crucell - Berna Biotech

Date March 16 – 19, 2010
Place Raffles City Convention Centre, Singapore

The Swiss Biotech Pavilion

The Swiss Biotech Association and swissnex Singapore are participating at BioPharma Asia 2010, and as in previous successful years, the aim is to give a strong presentation of Swiss biotechnology excellence. Swiss biotech companies and research institutions will showcase their activities.

As Co-Exhibitor of the Swiss Biotech Pavilion, Swiss companies and research institutions involved in the biotechnology field will have an excellent platform to present and promote their activities, disseminate up-to-date information, foster networking and establish new business partnerships. The participation fee structure is on a not-for-profit base.

Price	for SBA members	CHF	1'500.-
	for non-SBA members	CHF	2'500.-

Offer includes: space in the 'Swiss Pavilion' to showcase your company and display your material (1 front desk, one display standee, 1 poster), 2 Exhibitor Passes, 1 Conference Pass (17 & 18 March), Social Events during the entire four days at the convention, Social Events organized by swissnex Singapore, entry in show directory.

Deadline for application **January 31, 2009**
